

Release Notes – PostMaster Express ver.7.10

Release Date: June-23, 2010

The PostMaster Express Release Notes 7.10 provides details about new enhancement and some important defect fixes in **PostMaster Express Release 7.10**.

Abbreviations

This guide contains the following abbreviations.

Abbreviation	Description
DAT	Data files

1 Enhancements and Defects Fixed

1.1 Enhancements to PostMaster Express – v7.10

1.1.1 Security

- **Password significant character length increased**

The length of password characters that can be encrypted has been increased.

This will provide more security and prevent hacking.

1.2 Defect Fixes

- ◆ Fixed the display of garbage/junk characters for the images attached in the preview of the email, in PMX WebMail
- ◆ Fixed the problem of attached DAT files not being released from the “tmp” spool when an email was addressed to only one recipient and email archiving was enabled
