h1n1, terrorism, global warming, communal riots, world war three, a snoring wife... e-mail is the last thing one should worry about.

PostMaster EXPRESS | no worries.

Would you like to improve efficiency by reducing the multiple Internet connections used in your organization to a SINGLE connection? Would you like to store and retrieve all business emails at a click? Would you like detailed information on the Internet usage of your staff? Would you like to ensure that malicious and objectionable messages are blocked outside your network? Does your system administrator complain that most of his time goes in diagnosing and troubleshooting errors? Do you often feel that you could do with more technical help to resolve emailing issues? Do you still make phone calls to confirm email delivery? Did you say yes to any of the above? You may want to evaluate PostMaster Express.

PostMaster Express - for Effective Email Management

   PostMaster Express is designed to make email work for you, instead of the other way round. This robust and easy-to-use solution addresses all the emailing requirements of SMEs and can -

● Support 3 to 100 users.

● Provide access for the entire organization by a SINGLE Internet connection, even via dial-up.

● Give you uninterrupted email flow within the organization (intranet) even when your Internet connection is not functioning.

● Ensure that malicious or unproductive emails do not clog the system.

● Provide delivery notifications for outgoing email - no more status checks.

● Enable you to control Internet access so that employees use it for official needs only.

● Provide self diagnostic tests to make the administrator's life easy.

● Provide technical assistance on demand via a phone call or on the web.

   You can use PostMaster Express even without a registered domain name and mail-hosting arrangements i.e. with a single mailbox provided by your ISP.

Modules For PostMaster Express

   PostMaster Express also has add-on modules to further enhance the productivity of your organization's email and Internet usage. These are tightly integrated with PostMaster Express, giving you a single interface to manage all the aspects of your business email. (see chart)

Module	What it does	What it has
AntiVirus	● Scans all messages and attachments at the entry level ● Guaranteed uninfected and legitimate files	● Internationally certified AntiVirus engine ● Automatic update of virus definitions to handle the latest threats ● Customizable alerts ● Choice of action
AntiSpam	● Gateway level spam protection ● Doesn't delete spam emails - only tags them	● Spam filters ● Heuristic engine for content screening
WebProxy	● Multiple, simultaneous access to Internet through one shared connection ● Logs and controls Internet access	● Global activity control ● Support for multiple Internet protocols ● Web filters, access control lists and user authentication mechanisms for enhanced security

With PostMaster Express, email management is easy - just install and get going!!!

Deploying PostMaster Express is very simple:

- Configure the domain, mail and connectivity settings.
- Identify administrators and assign user privileges to employees.
- And PostMaster Express is ready to run!

PostMaster Express and You

The essence of PostMaster Express is the ease it offers you in managing your email system. With PostMaster Express installed, you benefit from:

A complete communication solution: Provide company email IDs to all employees and enjoy error-free email distribution.

Simplicity: A simple, user-friendly interface makes the solution easy to configure and run; it can be even managed without dedicated technical support.

Improved productivity: Control Internet usage, reduce unwanted email traffic and optimize bandwidth usage.

Secure connectivity: Virus-free emails and attachments, and spam-free inbox guaranteed.

Automated email management: Automatic acknowledgement of incoming emails, auto response, and easy diagnosis & troubleshooting available.

A centralized archive: Easily archive and retrieve business information, create a powerful & permanent backup, and reduce the storage burden on the mail server.

Time and money saved: Reduce multiple Internet connections in use to a SINGLE connection of any kind, even dial-up, and get speedy distribution of emails.

Help on demand: Help is always just a call away; also available are other modes of help - email, online helpdesk and 50+ channel partners to assist with your queries, apart from our pan-Indian presence.

Designed to deliver Peace of Mind!
Evaluate PostMaster Express
